

EBCC Spotlight session

Sysmex Symposium
Wednesday, 16 Nov 2022
13:15 – 14:15 CET

Breast cancer healthcare journey – from detection to treatment

Come
visit us at
booth E6

EBCC, Room 127/128 – Level P1 at CCIB

13:15 – 13:20 Opening

13:20 – 13:35 Evaluation of axillary lymph node marking with Magseed® before and after neo-adjuvant systemic therapy in breast cancer patients: MAGNET Study

Dr Consuelo Sanz

Hospital Universitario 12 de Octubre, Madrid

13:35 – 13:50 OSNA: Molecular evaluation of sentinel lymph nodes for precision decisions

Dr Esther Sanfeliu Torres

Hospital Clínic de Barcelona

13:50 – 14:05 Application of liquid biopsy during neoadjuvant treatment in breast cancer patients

Dr Nikaoly Ciriaco

Hospital del Mar, Barcelona

14:05 – 14:15 Q&A and closing

Pick up your **free ice-cream** at our **booth E6** and take **2 minutes** to fill out our survey!

EBCC Spotlight session

Endomag Symposium
Thursday, 17 Nov 2022
13:15 – 14:15 CET

Advanced de-escalation of axillary surgery

EBCC, Room 127/128 – Level P1 at CCIB

Dr Michael Alvarado
A complete magnetic
approach to Targeted
Axillary Dissection

Dr Stefan Paepke
Magtrace® in the
Post-NAC axilla

Summary:

How can we reduce the number of surgeries patients receive, while still delivering the most optimal outcomes? Join us for this international session, where we'll share the unique approach of performing magnetic targeted axillary dissection (including SLNB) using just the one Sentimag® platform and showcase the benefits of using a single long-lasting magnetic tracer (Magtrace®) for effective staging of the axilla post-NAC.
