

EUROPEAN
LIQUID BIOPSY
SOCIETY

sysmex

Lighting the way
with diagnostics

Meet us at ISMRC 2023

**Plasma-SeqSensei™
Cancer IVD Kits**
Master the sensitivity
in ctDNA detection

Save the date
2-4 May
in Hamburg,
Germany

www.sysmex-europe.com/ISMRC

Meet the expert session

Topic: Monitoring of treatment response and recurrence with Plasma-SeqSensei™ in melanoma patients

Prof. Dr Christoffer Gebhardt
Dr Isabel Heidrich

Wednesday, 3 May 2023
13:15 – 13:45

Sysmex booth #N10

ISMRC symposia

Topic: Screening of patient samples with advanced non-small cell lung cancer in circulating cell-free tumor DNA using three targeted assays

Prof. Léa Payen-Gay

Thursday, 4 May 2023
9:00 – 9:20

Lecture hall

Poster presentations

Topic: Routine molecular screening of patient samples with advanced non-small cell lung cancer in circulating cell-free tumor DNA using the Plasma-SeqSensei™ NSCLC RUO Kit at diagnostic in Lyon's hospital.

Prof. Léa Payen-Gay
Dr Gaëlle Lescuyer

Topic: Identifying the levers of cost-effectiveness of next-generation-sequencing-based liquid biopsy for colorectal cancer in France, Spain and Germany.

Prof. Wendelin Schramm

Topic: Improved detection of disease progression in metastatic breast cancer by absolute molecular counting: the 100 copies/mL question.

Prof. Geert A. Martens

Topic: Development of a target-capture NGS assay for use in molecular-based research of myeloid measurable residual disease.

M.Sc. Natalie Milner
