Sysmex Europe GmbH

Sysmex Europe and Sysmex Germany rank among Germany's Top 100 employers by Great Place to Work®

Norderstedt, 31 March 2021 – Sysmex Europe is proud to announce that both Sysmex Europe GmbH and Sysmex Germany are listed under the top 100 as a great workplace by Great Place to Work® Deutschland this year.

Great Place to Work® is an international research and consulting institute that supports companies in around 60 countries in developing their corporate and workplace culture. Every year, Great Place to Work® awards excellent employers internationally, nationally, regionally and sector-specifically for their performance based on anonymous employee surveys and the analysis of corporate culture. Sysmex Europe and Sysmex Germany earned their 2021 credential based on overwhelmingly positive feedback and ratings from their employees, which were captured via anonymous surveys.

“We are thrilled to be listed under the top 100 companies as Great Place to Work. It makes us proud to have both Sysmex Europe and Sysmex Germany awarded as a great place to work. This award reflects our efforts to create a unique working atmosphere which takes into consideration the employees’ well-being” says Alain Baverel, President and CEO of Sysmex Europe. “We are excited that our commitment to fostering a workplace that supports and encourages the collaboration between our colleagues within the Sysmex Group has been rewarded with such a strong result. The EMEA collaboration and leadership principles that were developed and rolled out last year certainly played a key role in the evaluation – it encourages us to continue the way we started,” adds Ulrike Weber, Vice President, Head of Human Resources EMEA at Sysmex Europe.

Among the survey highlights, 90% of employees say Sysmex Europe is a great place to work, compared to 72% of employees at a typical German-based company. Further, 88% are proud to tell others that they work at Sysmex Europe. It is our goal to ensure these numbers remain high and that Sysmex is a great place to work for years to come!

About Sysmex Europe GmbH

Sysmex supports healthcare professionals around the world in lighting the way with diagnostics by providing a broad range of medical diagnostics products and solutions.
