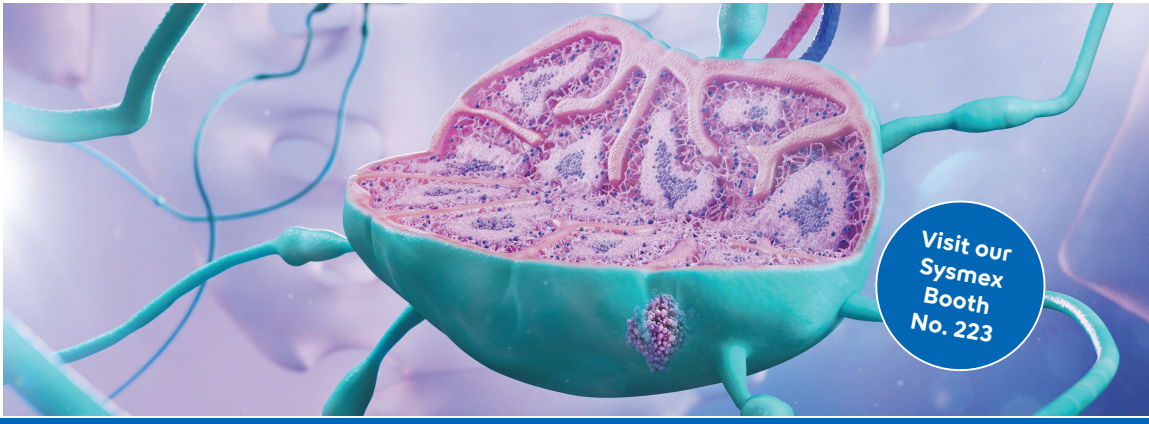
Invitation for ECP 2026 Sysmex Hot Spot Session

OSNA beyond breast cancer: Molecular nodal staging in gynaecological and prostate cancer



Monday, 14 Sep 2026 | **10:40 - 11:00** | **Hot Spot Stage**

Speakers:

Dr Ana Calatrava Fons
Head of Pathology,
Instituto Valenciano de Oncología,
Valencia, Spain

Discover the pioneering OSNA-REDUCE study

- Evaluation of OSNA for lymph node analysis in prostate cancer
- Potential to improve the detection of nodal metastases by guided PLND
- Supporting informed surgical decision-making

Dr Sonia Gatius Caldero
Pathologist at Hospital Universitari Arnau de Vilanova,
Lleida, Spain

Gain practical insights into OSNA in gynaecological cancers

- Benefits of OSNA in gynaecological cancers
- Advancing personalised patient care
- OSNA user experience from Hospital Arnau de Vilanova

Don't miss our MammaTyper® poster

017 Correlation of RT-qPCR–based progesterone receptor, estrogen receptor, and Ki-67 expression with multigene recurrence risk in HR+/HER2– breast cancer (SCORE study)

Presenter: Dr Nathalia Zaegrean

Poster Area Hall B, Sunday, September 13, 10:30 – 11:30, PS-01 Poster Session Breast Pathology
